Objective

Aspiring Full-Stack Developer with hands-on experience in web, mobile, backend, and AI-integrated application development. Seeking to contribute technical skills to a professional development team while continuing to grow as a software engineer.

Education

Polytechnic University of the Philippines ***2022-Present***
Bachelor of Science in Information Technology
- Magna Cum Laude
- President's List (2022-2026)

DOST-SEI JLSS Scholar - 2024-Present

Capstone Project - Shoelotskey Web & Admin Suite: A Multi-Branch Management System With Ai Forecasting Using Prophet Ai

Valenzuela City Polytechnic College ***2020-2022***
Information Communication Technology (TechVoc Strand)
- Graduated With High Honors

Paso De Blas National High School **2016-2020**
- Outstanding Performance in Communication Arts (English) Award

Technical Skills

Programming Languages:
Javascript, Typescript, Python, Java, C, Php

Frontend Development:
ReactJS, Svelte, HTML, CSS

Mobile Development:
React Native, Expo, FlutterFlow

Backend & APIs:
Node.js, Express.js, Laravel, REST APIs, MongoDB (NoSQL), MySQL, Mongoose

Tools & Deployment:
Git/Version, GitHub, Vercel, Render, Hostinger

Integrations & Services:
Mapbox, Google Calendar API, ChatGPT API, Gemini API, Cloudinary

Data & Analytics:
Python Prophet, Turf.js

Authentication & Security:
JWT, OAuth 2.0

AI & AI-Assisted Development:
AI Co-Op, AI Frontend, AI Agile, AI-Enhanced Development, Claude,

UI/UX:
UI/UX Design, Claude UI

Affiliations

- DOST-SEI Junior Level Science Scholarships (JLSS) — Scholar | 2024–2026
- IBITS (Institute of Bachelors in Information Technology Studies) — Member | 2023–2025
- AWS Cloud Clubs — Member | 2023–2025
- Google Developer Groups (GDG) — Member | 2023–2025
- School Anti-Drug Abuse Council — President | 2019–2020
- ESP Club — President | 2019–2020

Experience and Projects

Backend Developer Intern — Advanced Learning Programs (NPVN) | 2026

Internship Project: LMS Mobile Application & ALPs Calendar

- Contributed to the development and maintenance of a private LMS mobile application and company calendar platform.
- Integrated Google Calendar API with OAuth authorization and implemented calendar synchronization workflows.
- Debugged and maintained backend APIs, patched API inconsistencies, and resolved production issues.
- Managed production cache and improved handling of outdated or missing session/cookie structures.

Capstone Project: Full-Stack Developer — Shoelotskey Web & Admin Suite

- Developed a multi-branch management system with a connected **customer mobile app** using React and React Native.
- Designed multi-branch architecture, database integration, and Role-Based Access Control (RBAC).
- Implemented real-time status tracking synchronization between the management system and customer mobile app.
- Integrated appointment/pickup notifications and product photo comparison features.
- Integrated Python Prophet for sales forecasting and built inventory aging visualization.

Other Projects:

Full-Stack Developer — Wakepoint

- Developed a React Native + Expo mobile app using Mapbox for GPS tracking and background location.
- Implemented smart wake triggers to notify users upon reaching their destination.
- Developed backend APIs and deployed services using Render.

Full-Stack Developer — DIKTA AI

- Developed an AI-powered document generation platform using Svelte and ChatGPT API.
- Built responsive frontend interfaces and backend services for AI request processing and data flow.
