EDUCATION

Polytechnic University of the Philippines ***2022-2026***
Bachelor of Science in Information Technology
- ***Magna Cum Laude***
- President's List (2022-2026)

DOST-SEI JLSS Scholar - 2024-2026
Capstone Project - Shoelotskey Web & Admin Suite: A Multi-Branch Management System With Forecasting Using Prophet

Valenzuela City Polytechnic College ***2020-2022***
Information Communication Technology
- Graduated With High Honors

Paso De Blas National High School **2016-2020**
- Outstanding Performance in Communication Arts (English) Award
- Graduated With Honors

TECHNICAL SKILLS

Languages:

JavaScript, TypeScript **(Proficient)**

PHP **(Prior Experience w/ Internship)**

Python, Java, C **(Working Knowledge)**

Frontend: React.js, React Native, Svelte, HTML5, CSS3, Tailwind CSS

Backend & APIs: Node.js, Express.js, Laravel, REST APIs, OAuth 2.0, JWT

Databases: MongoDB, MySQL, Mongoose

Data & Analytics: Python Prophet, Turf.js

Cloud & Tools: Git, GitHub, Vercel, Render, Hostinger, Mapbox API, Google Calendar API, OpenAI/Gemini APIs, Cloudinary

EXPERIENCE & PROJECTS

Backend Developer Intern – Advanced Learning Programs (NPVN) | 2026

Project: LMS Mobile Application & ALPs Calendar **(Internship Project)**
Tech Stack: PHP, SQL

Contributed to the development and maintenance of an LMS mobile application and an internal company calendar platform, focusing on backend API reliability and system integration.

- Integrated Google Calendar API with OAuth 2.0 authorization to support calendar synchronization workflows.
- Debugged and maintained backend REST APIs, resolving inconsistencies and production issues.
- Supported mobile LMS integration by stabilizing API responses and maintaining compatibility with frontend requirements.
- Managed production caching and addressed outdated or missing session and cookie structures.

Project: Full-Stack Developer – Shoelotskey Web & Admin Suite (Capstone Project)
Tech Stack: React & React Native w/ Expo, Typescript, MongoDB, Python Prophet, Cloudinary

Developed a multi-branch management platform with a customer-facing mobile application, centralized operations, and predictive analytics.

- Designed the multi-branch system architecture, database integration, and Role-Based Access Control (RBAC).
- Developed web and mobile features for appointment management, pickup notifications, and service status tracking.
- Implemented synchronized status updates between the administrative platform and customer mobile application.
- Integrated product photo comparison features using Cloudinary.
- Integrated Python Prophet for sales forecasting and developed inventory aging visualizations.

Project: Full-Stack Developer – Wakepoint (Personal Project)
Tech Stack: React Native w/ Expo, MongoDB, MapBox, Render for API server

Developed a location-based mobile application that uses GPS and geofencing to trigger destination-based alerts.

- Developed a React Native application using Expo and Mapbox for location tracking and geofencing.
- Implemented destination-based wake-up alerts using location-triggered notifications.
- Developed backend APIs and deployed backend services using Render.

Project: Full-Stack Developer – DIKTA AI (Personal Project)
Tech Stack: Svelte, MongoDB, OpenAI API.

Developed an AI-powered document generation platform that automates administrative paperwork using dynamic templates.

- Built responsive frontend interfaces using Svelte.
- Developed backend services for AI request processing and document generation.
- Integrated the OpenAI API to generate structured documents from user inputs.

AFFILIATIONS & LEADERSHIP

- DOST-SEI Junior Level Science Scholarships (JLSS) – Scholar | 2024–2026
- IBITS (Institute of Bachelors in Information Technology Studies) – Member | 2023–2025
- AWS Cloud Clubs – Member | 2023–2025
- Google Developer Groups (GDG) – Member | 2023–2025
- School Anti-Drug Abuse Council – President | 2019–2020
- ESP Club – President | 2019–2020
